VISION

To impart quality technical education through research, innovation, and teamwork for creating professionally superior and ethically strong manpower that meets the global challenges of engineering industries and research organizations.

MISSION

- Maintain state-of-the-art ICT enabled teaching and learning methodologies.
- Enable graduates to become digital age literates, innovators, and professionals.
- Provide skills, knowledge, and attitudes for success as engineers, leaders, and entrepreneurs.
- Prepare graduates for lifelong learning and career challenges.

Program Specific Outcomes (PSOs)

- Apply knowledge and competence in the design and development of computer-based systems addressing industrial and social needs.
- Adapt to emerging technological advancements including cybersecurity, AR/VR, and IoT.
